efecto de **CONFIRMAR** la clasificación de la información realizada y como consecuencia lógica, de las versiones públicas correspondientes; para tales efectos, me permito expresar lo siguiente:

I.- Competencia. La suscrita, Jefa del Departamento de Adquisiciones de la Fiscalía General del Estado de Veracruz, se encuentra facultada para realizar la clasificación de información en comento, tal como se advierte del contenido de los arábigos artículos 21 de la Constitución Política de los Estados Unidos Mexicanos; 52 y 67, fracción I, de la Constitución Política del Estado de Veracruz de Ignacio de la Llave; 1, 2, 15, fracción I Bis, de la Ley Orgánica de la Fiscalía General del Estado de Veracruz de Ignacio de la Llave; 1, 4, apartado B, fracción XI b), 275, fracción I y 276 del Reglamento de la Ley Orgánica de la Fiscalía General del Estado de Veracruz en estricta relación y concordancia con los artículos 4 párrafo segundo, 11 fracción VII, 58, 60 y 68 fracción III de la Ley 875 de Transparencia y Acceso a la Información Pública para el Estado de Veracruz de Ignacio de la Llave.

PRUEBA DE DAÑO EN LA CLASIFICACIÓN DE LA INFORMACIÓN PÚBLICA. SU VALIDEZ NO DEPENDE DE LOS MEDIOS DE PRUEBA QUE EL SUJETO OBLIGADO APORTE.

De acuerdo con el artículo 104 de la Ley General de Transparencia y Acceso a la Información Pública, y con los lineamientos segundo, fracción XIII y trigésimo tercero, de los Lineamientos generales en materia de clasificación y desclasificación de la información, así como para la elaboración de versiones públicas, aprobados por el Consejo Nacional del Sistema Nacional de Transparencia, Acceso a la Información Pública y Protección de Datos Personales y publicados en el Diario Oficial de la Federación el 15 de abril de 2016, la prueba de daño es la argumentación fundada y motivada que deben realizar los sujetos obligados para acreditar que la divulgación de la información lesiona un interés jurídicamente protegido y que el daño que puede producir es mayor que el interés de conocer ésta. Para tal efecto, disponen que en la clasificación de la información pública (como reservada o confidencial), debe justificarse que su divulgación representa un riesgo real, demostrable e identificable de perjuicio significativo al interés público o a la seguridad nacional; que ese riesgo supera el interés público general de que se difunda; y, que la limitación se adecua al principio de proporcionalidad y representa el medio menos restrictivo disponible para evitar el perjuicio. Así, la prueba de daño establece líneas argumentativas mínimas que deben cursarse, a fin de constatar que la publicidad de la información solicitada no ocasionaría un daño a un interés jurídicamente protegido, ya sea de índole estatal o particular. Por tanto, al tratarse de un aspecto constreñido al ámbito argumentativo, la validez de la prueba de daño no depende de los medios de prueba que el sujeto obligado aporte, sino de la solidez del juicio de ponderación que se efectúe en los términos señalados.

En ese orden de ideas, la información que se clasifica bajo el rubro de **Reservada**, contenida en los contratos AD 25/2024 y AD 26/2024, resultado de procesos de Adjudicación Directa; las facturas correspondientes a los contratos N° 21/2024, 29/2024, 30/2024, AD 10/2024, AD 11/2024, AD 12/2024, AD 29/2024, AD 33/2024, AD 46/2024, AD 14/2024, AD 18/2024 y AD 50/2024, precedentes de procesos de licitación y de Adjudicación Directa; y el Acta de la Octava Sesión Ordinaria del Comité de Adquisiciones, Arrendamientos, Servicios y Enajenación de Bienes Muebles de la Fiscalía General del Estado de Veracruz de Ignacio de la Llave, Ejercicio Fiscal 2024, se ubica según corresponde a cada caso en concreto en las hipótesis previstas en las fracciones I y III del artículo 68 de la Ley Número 875 supra citada, en estricta relación con el diverso 113 fracciones V y VII de la Ley General de Transparencia y Acceso a la Información Pública y de los Lineamientos Vigésimo Tercero y Vigésimo Sexto de los Lineamientos Generales en materia de Clasificación y Desclasificación de la Información, así como para la elaboración de versiones públicas, tal y como se demuestra a continuación:

Para que se verifique el supuesto de reserva, cuando se cause un perjuicio a las actividades de persecución de los delitos, deben de actualizarse los siguientes elementos:

I. La existencia de un proceso penal en sustanciación o una carpeta de investigación en trámite;

II. Que se acredite el vínculo que existe entre la información solicitada y la carpeta de investigación, o el proceso penal, según sea el caso, y

III. Que la difusión de la información pueda impedir u obstruir las funciones que ejerce el Ministerio Público o su equivalente durante la etapa de investigación o ante los tribunales judiciales con motivo del ejercicio de la acción penal.

De igual manera, solicito tenga a bien considerar que la clasificación de la información de carácter reservado, de conformidad con el Lineamiento Trigésimo Cuarto de los Lineamientos en comento, deberá permanecer durante 5 años.

Para acreditar las hipótesis de la normativa previamente transcrita, es necesario establecer que las actuaciones de los Sujetos Obligados están imbuidas de la buena fe administrativa, en el sentido que se presumen apegadas a la legalidad y veracidad, salvo prueba en contrario, según lo determinó el Instituto Nacional de Transparencia, Acceso a la Información y Protección de Datos Personales al resolver el Expediente DIT 0079/2018, específicamente en Párrafo Segundo de la foja 14 de la Resolución en cita.

Lo anterior, en virtud que de revelarse las características y especificaciones técnicas de los chalecos y cascos de protección balística contenidos en el Acta de la Octava Sesión Ordinaria del Comité de Adquisiciones, Arrendamientos, Servicios y Enajenación de Bienes Muebles de la Fiscalía General del Estado de Veracruz de Ignacio de la Llave, Ejercicio Fiscal 2024, representaría un riesgo para la vida del personal operativo en el desempeño de sus funciones, información importante y vital que representaría una ventaja y un área de oportunidad para los criminales y grupos delictivos, ya que tendrían una visión integral del estado de fuerza y capacidad de reacción de esta Fiscalía General del Estado de Veracruz, para vulnerarlo y obstruirlo en detrimento de la investigación y persecución de los delitos, originando consecuencias graves e irreparables.

De igual forma, de revelarse la ubicación del taller mecánico contenida en los contratos abiertos: N° AD 25/2024 y AD 26/2024, en donde se encuentran vehículos oficiales y unidades blindadas, adscritas al personal operativo a cargo de la investigación y persecución de delitos, generaría un riesgo real y demostrable en perjuicio de la vida, seguridad o salud de una persona física y en la procuración de justicia, originando consecuencias graves, irreversibles e irreparables, toda vez que, dicha información vinculada a los contratos referidos, representaría una ventaja y un área de oportunidad para la delincuencia organizada para ubicar e identificar a las unidades vehiculares que se encuentren en mantenimiento, con el propósito de vulnerarlos, poniendo en peligro de forma directa la vida de quienes prestan los servicios en el taller, así como los servidores públicos que ocupen las unidades vehiculares, además de representar un riesgo para el patrimonio de este organismo autónomo, pues dicha información podría ser utilizada por los criminales con el propósito de menoscabar los recursos materiales destinados a la procuración de justicia, para obstruir la prevención o persecución de los delitos. Aunado a lo anterior, la difusión del número de vehículos y su adscripción contenida en el Acta de la Octava Sesión Ordinaria del Comité de Adquisiciones, Arrendamientos, Servicios y Enajenación de Bienes Muebles de la Fiscalía General del Estado de Veracruz de Ignacio de la Llave, Ejercicio Fiscal 2024, representaría una ventaja y un área de oportunidad para los criminales y grupos delictivos, ya que tendrían una visión integral del estado de fuerza y reacción del Ente, para vulnerarlo y obstruirlo en detrimento de la investigación y persecución de delitos, originando consecuencias graves, irreversibles e irreparables.

Asimismo, la difusión de los datos técnicos de las adquisiciones tecnológicas destinadas a las labores de investigación informática forense, contenidas en las facturas de los contratos números 29/2024, AD 14/2024, AD 18/2024 y AD 033/2024, podría poner en riesgo la persecución de los delitos y causaría un riesgo real, toda vez que, revelar información que se genere con las técnicas de investigación, menoscabaría las facultades de reacción e investigación a cargo de esta Fiscalía General del Estado de Veracruz, afectando con ello las líneas de investigación de ilícitos de alto impacto, así como disminuir la capacidad para allegarse de los elementos necesarios para el esclarecimiento de los hechos constitutivos de delito originando consecuencias irreversibles e irreparables en la procuración de justicia.

En ese sentido y en virtud de que la difusión de los datos técnicos de las adquisiciones tecnológicas destinadas a la seguridad informática contenidas en las facturas de los contratos N° 21/2024 y 30/2024, pone en riesgo la estabilidad de los sistemas informáticos de esta Fiscalía General del Estado de Veracruz, y con ello la operación institucional de este organismo autónomo, propiciando el acceso ilícito a sistemas y equipos de informática, afectando directamente las funciones que ejerce el Ministerio Público o su equivalente durante la investigación y persecución de delitos. Por lo que, difundir los datos técnicos de las adquisiciones referidas, provocaría un riesgo real de recibir intentos de ataques cibernéticos, por lo tanto, se considera que esas agresiones serían potencialmente más riesgosas que aquellas que pudieran generar sin el consentimiento exacto de dicha información.

Igualmente, la marca, tipo, modelo, el Número de Identificación Vehicular (NIV), así como, las especificaciones técnicas de las unidades vehiculares, en el caso concreto, son datos identificativos que de revelarse ponen en peligro la vida del personal operativo en el desempeño de sus funciones operativas y la difusión de dicha información puede vulnerar y obstruir la investigación y persecución de delitos, originando consecuencias irreparables, ya que dicha información vinculada con las facturas correspondientes a los contratos AD 10/2024, AD 11/2024, AD 12/2024, AD 29/2024, AD 46/2024 y AD 50/2024, permite saber las fortalezas, virtudes y deficiencias de las unidades vehiculares, obteniendo datos técnicos que los hacen identificados e identificables con el propósito de ser vulnerados, representando una ventaja y un área de oportunidad para los criminales y menoscabar la capacidad de reacción de la Fiscalía General del Estado de Veracruz y obstruyendo las funciones encaminadas a la investigación y persecución de los delitos.

Asimismo, para acreditar los requisitos establecidos por el Lineamiento Vigésimo Sexto, se procede a plantear lo siguiente:

I. La existencia de un proceso penal en sustanciación o una carpeta de investigación en trámite;

Este requisito se cumple debido a la naturaleza misma de la Fiscalía General del Estado de Veracruz de Ignacio de la Llave, pues su función sustantiva principal, es la investigación de delitos y su prosecución judicial. Por lo que los bienes adquiridos, tanto balísticos, tecnológicos como de transporte, se ven inmersos en dichas tareas, siendo inverosímil detallar la nomenclatura de cada una de las Carpetas de Investigación y/o Proceso Penal en las que

II. Que se acredite el vínculo que existe entre la información solicitada y la carpeta de investigación o el proceso penal, según sea el caso, y

En virtud de lo anteriormente expuesto, los chalecos y cascos balísticos, así como los recursos tecnológicos son equipos utilizados por el personal operativo, que se encarga de la investigación y la persecución de los delitos, por lo que, tienen como propósito el resguardo y protección ante ataques mal intencionados, de información relacionada con investigaciones o procesos, de allí que sea necesario resguardar las especificaciones técnicas a efecto de evitar la práctica de ingeniería inversa sobre estos y con ello, vulnerar las comunicaciones de esta representación social y la procuración de justicia.

Respecto de las unidades móviles adquiridas y los vehículos blindados que son objeto de los servicios de mantenimiento adquiridos, al conocer las capacidades de maniobra y operación y su equipamiento,

permitirían ser intervenidas con unidades de superiores capacidades, de allí la necesidad de proteger dicha información que se relaciona directamente con sus tripulantes y con las actividades que ellos desarrollan; que como ya se mencionó, son inherentes a la función sustantiva principal de la Fiscalía General del Estado de Veracruz.

III. Que la difusión de la información pueda impedir u obstruir las funciones que ejerce el Ministerio Público o su equivalente durante la etapa de investigación o ante los tribunales judiciales con motivo del ejercicio de la acción penal.

Como ya se ha abordado, incidir en los bienes en referencia, podría impedir la efectividad de las investigaciones o bien, del cumplimiento de actos de investigación en campo, traslado de personal y en sí, de las actividades a los cuales se encuentran destinados.

No debe perderse de vista que el cumplimiento de las obligaciones de transparencia tienen como finalidad garantizar la pulcritud con la que se realiza el ejercicio del erario público, pero encuentra su limitación por causas de interés público, seguridad pública o nacional; como lo es el caso que nos ocupa. La Fiscalía General del Estado de Veracruz de Ignacio de la Llave, es el representante social con el deber primario del ejercicio de la acción penal, por lo cual, su capacidad operativa debe protegerse si se pretende que sus acciones sean exitosas y eficaces.

III.- Hipótesis legales a satisfacer.- Según lo establecido en las fracciones I, II y III del artículo 70 de la Ley 875 de Transparencia supra citada, se cumplen con las hipótesis normativas de la siguiente forma.

I. Que la divulgación de la información represente un riesgo real, demostrable e identificable de perjuicio significativo al interés público.

La información requerida, tal como se ha mencionado, tiene relación directa con el interés público pues atiende a una representación social con el objeto de perseguir los delitos, situación que claramente implica que se generen acciones tuitivas de intereses difusos ad cautelam, es decir, prevenir las situaciones que pudieran poner en riesgo la vida de los servidores públicos y la persecución de los delitos, sin que con ello, se obstaculice la rendición de cuentas a la sociedad. Por tanto, resulta necesario la generación de versiones públicas ligadas al cumplimiento de obligaciones de transparencia, tema que también reviste interés público, por lo que, se realiza un estricto análisis de la información que se considera reservada, permitiendo con ello el cumplimiento de las obligaciones establecidas por el marco jurídico aplicable.

II. Que el riesgo de perjuicio que supondría la divulgación, supere el interés público general de que se difunda.

En el caso que nos ocupa, tal como se ha mencionado, existe interés público de conocer la información relativa al gasto público de la Fiscalía General del Estado; sin embargo, los documentos que contienen dicha información, comprenden además información reservada, la cual también reviste un interés público de ser sujeta a protección, por lo que los documentos en estudio, se consideran sui generis, sin embargo, con el estricto testado de aquella que ha sido clasificada, se minimiza el riesgo de perjuicio que supondría su divulgación.

III. Que la limitación se adecue al principio de proporcionalidad y represente el medio menos restrictivo disponible para evitar el perjuicio.

Tal como se ha mencionado, únicamente se ha realizado el testado de la información específicamente clasificada como reservada, permitiendo el escrutinio público del objeto de cada contrato, el gasto ejercido al respecto y, en consecuencia, transparentar las actividades desarrolladas por la Fiscalía

General del Estado de Veracruz de Ignacio de la Llave, relativas a la adquisiciones de bienes muebles, situación que se ajusta al principio de proporcionalidad, tal como se puede apreciar en cada contrato en específico.

Por otra parte, por cuanto hace a la presencia de **Datos Personales**, los cuales se clasifican como **información Confidencial**, se testaron únicamente aquellos cuya finalidad no es compatible con el cumplimiento de obligaciones de transparencia, es decir, su divulgación no se justifica en el caso en concreto.

Así, los **DATOS BANCARIOS**, contenidos en los contratos N° AD 25/2024 y AD 26/2024 resultado de procesos de adjudicación directa; y en las facturas correspondientes al contrato abierto N° 01/2024, Adendum al contrato abierto N° 01/2024, pedido N° AD 02 CONAVIM.2024, AD 02/2024, AD 18/2024, AD 33/2024 y Adendum al contrato N° 02/2024, como nombre del banco, sucursal, plaza, número de cuenta bancaria/cuenta de cheques, CLABE interbancaria y referencia, número de convenio, referencia bancaria y número de tarjeta, constituyen información que sólo su titular y/o representante legal y/o personas autorizadas poseen, ya que corresponde a información de carácter patrimonial. La CLABE Interbancaria es un dato que se proporciona a cada sujeto de manera personalizada e individual, por lo que dicho dato lo identifica respecto de cualquier trámite que se realice ante la institución bancaria o financiera. Por medio de dicho número, la persona (física o moral) puede acceder a la información contenida en las bases de datos de las instituciones referidas, en donde se pueden consultar diversas transacciones financieras como son movimientos, saldos y demás información. Por lo anterior, la CLABE interbancaria y el número de cuenta bancaria/cuenta de cheques de personas físicas o morales, constituyen datos personales confidenciales que requieren el consentimiento expreso de su titular para su difusión. PERSONAS MORALES. TIENEN DERECHO A LA PROTECCIÓN DE LOS DATOS QUE PUEDAN EQUIPARARSE A LOS PERSONALES, AUN CUANDO DICHA INFORMACIÓN HAYA SIDO ENTREGADA A UNA AUTORIDAD.

El artículo 16, párrafo segundo, de la Constitución Política de los Estados Unidos Mexicanos reconoce el derecho a la protección de datos personales, consistente en el control de cada individuo sobre el acceso y uso de la información personal en aras de preservar la vida privada de las personas. En ese sentido, el derecho a la protección de datos personales podría entenderse, en primera instancia, como una prerrogativa de las personas físicas, ante la imposibilidad de afirmar que las morales son titulares del derecho a la intimidad y/o a la vida privada; sin embargo, el contenido de este derecho puede extenderse a cierta información de las personas jurídicas colectivas, en tanto que también cuentan con determinados espacios de protección ante cualquier intromisión arbitraria por parte de terceros respecto de cierta información económica, comercial o relativa a su identidad que, de revelarse, pudiera anular o menoscabar su libre y buen desarrollo. Por tanto, los bienes protegidos por el derecho a la privacidad y de protección de datos de las personas morales, comprenden aquellos documentos e información que les son inherentes, que deben permanecer ajenos al conocimiento de terceros, independientemente de que, en materia de transparencia e información pública, opere el principio de máxima publicidad y disponibilidad, conforme al cual, toda información en posesión de las autoridades es pública, sin importar la fuente o la forma en que se haya obtenido, pues, acorde con el artículo 6o., en relación con

el 16, párrafo segundo, constitucionales, la información entregada a las autoridades por parte de las personas morales, será confidencial cuando tenga el carácter de privada por contener datos que pudieran equipararse a los personales, o bien, reservada temporalmente, si se actualiza alguno de los supuestos previstos legalmente.

De la misma manera, el **NÚMERO IDENTIFICADOR (OCR),** contenida en los contratos AD 25/2024 y AD 26/2024, resultado de procesos de Adjudicación Directa; se compone del número de sección electoral y el número consecutivo único asignado al momento de conformar la Clave de Elector correspondiente, que devela información geoelectoral. Por consiguiente, es confidencial, en virtud de tratarse de datos personales, concernientes a una persona física identificada o identificable, por lo que resulta procedente su protección.

Aunado a lo anterior, se testó el **NOMBRE Y APELLIDOS** de un particular en las facturas de los contratos N° AD 29/2024, AD 33/2024, AD 46/2024 y AD 50/2024, así como, en el Acta de la Octava Sesión Ordinaria del Comité de Adquisiciones, Arrendamientos, Servicios y Enajenación de Bienes Muebles de la Fiscalía General del Estado de Veracruz de Ignacio de la Llave, Ejercicio Fiscal 2024, en razón de ser información cuya divulgación permite hacer identificada o identificable a una persona, misma que para ser revelada requiere la autorización de su titular al no estar vinculada al ejercicio de la función pública, toda vez que, dicha información fue proporcionada a la Fiscalía General del Estado de Veracruz para fines distintos a su divulgación, además de que es información que por ley es considerada como confidencial.

Asimismo, se testó la **FIRMA** de un particular en el Acta de la Octava Sesión Ordinaria del Comité de Adquisiciones, Arrendamientos, Servicios y Enajenación de Bienes Muebles de la Fiscalía General del Estado de Veracruz de Ignacio de la Llave, Ejercicio Fiscal 2024, toda vez que son el conjunto de rasgos propios de su titular, un atributo de la personalidad de los individuos y busca que la misma no pueda ser reproducida por otra persona. La firma identifica o hace identificable a su titular, aunado a que ésta es utilizada como una prueba del consentimiento y aprobación por parte de una persona, motivo por el cual debe ser resguardada y considerada como un dato confidencial.

PRUEBA DE DAÑO EN LA CLASIFICACIÓN DE LA INFORMACIÓN PÚBLICA. SU VALIDEZ NO DEPENDE DE LOS MEDIOS DE PRUEBA QUE EL SUJETO OBLIGADO APORTE.

De acuerdo con el artículo 104 de la Ley General de Transparencia y Acceso a la Información Pública, y con los lineamientos segundo, fracción XIII y trigésimo tercero, de los Lineamientos generales en materia de clasificación y desclasificación de la información, así como para la elaboración de versiones públicas, aprobados por el Consejo Nacional del Sistema Nacional de Transparencia, Acceso a la Información Pública y Protección de Datos Personales y publicados en el Diario Oficial de la Federación el 15 de abril de 2016, la prueba de daño es la argumentación fundada y motivada que deben realizar los sujetos obligados para acreditar que la divulgación de la información lesiona un interés jurídicamente protegido y que el daño que puede producir es mayor que el interés de conocer ésta. Para tal efecto, disponen que en la clasificación de la información pública (como reservada o confidencial), debe justificarse que su divulgación representa un riesgo real, demostrable e identificable de perjuicio significativo al interés público o a la seguridad nacional; que ese riesgo supera el interés público general de que se difunda; y, que la limitación se adecua al principio de proporcionalidad y representa el medio menos restrictivo disponible para evitar el perjuicio. Así, la prueba de daño establece líneas argumentativas mínimas que deben cursarse, a fin de constatar que la publicidad de la información solicitada no ocasionaría un daño a un interés jurídicamente protegido, ya sea de índole estatal o particular. Por tanto, al tratarse de un aspecto constreñido al ámbito argumentativo, la validez de la prueba de daño no depende de los medios de prueba que el sujeto obligado aporte, sino de la solidez del juicio de ponderación que se efectúe en los términos señalados.

DÉCIMO TRIBUNAL COLEGIADO EN MATERIA ADMINISTRATIVA DEL PRIMER CIRCUITO.

Amparo en revisión 149/2018. Amanda Ibáñez Molina. 6 de septiembre de 2018. Unanimidad de votos. Ponente: Alfredo Enrique Báez López. Secretario: Roberto César Morales Corona.

Esta tesis se publicó el viernes 23 de noviembre de 2018 a las 10:34 horas en el Semanario Judicial de la Federación.

Con base en lo anterior, resulta necesario establecer, que dicho *"COMANDANTE DE LA POLICIA MINISTERIAL"* forma parte de los servidores públicos al servicio de la Fiscalía General del Estado de Veracruz de Ignacio de la Llave que realiza funciones operativas, mismas que se encuentran inmersas en las investigaciones ministeriales; ya sea que se trate de Investigaciones Ministeriales o Carpetas de Investigación, según la terminología aplicable.

En ese sentido, dicho servidor público posee información valiosa para el ejercicio de las funciones del ministerio público, particularmente la relativa a la investigación y persecución de los delitos. Precisamente, esa peculiaridad lo convierte en sujeto de interés tanto de parte del Estado como de la delincuencia organizada.

Lo anterior, en virtud de que el citado servidor público forma parte fundamental del éxito de las investigaciones, así como del propósito de las mismas, pues de manera directa, tiene el contacto con las personas, sujetos, objetos e insumos del delito, al realizar la investigación correspondiente.

Por tanto, dar a conocer de manera indiscriminada la información solicitada, implica la divulgación de información que expresamente pone en peligro la vida del servidor público, pues es posible que quienes cometieron algún delito, puedan identificarlo con diversos propósitos; atentar contra su vida o integridad a efecto de alterar la conducción o resultado de su trabajo, atentar contra la vida de sus familiares con el mismo propósito, o bien, para intentar ofrecerle un soborno.

En cualquiera de los casos previamente referidos, se hace identificable al servidor público en comento, quien puede influir directamente en las entrevistas, investigaciones y peritajes, provocando que la persecución de los delitos se vea seriamente afectada, incluso, provocando la alteración de escenas del crimen, de pruebas, de entrevistas, o divulgando bajo la coacción de la que pueda ser objeto, de información privilegiada contenida dentro de las investigaciones, como por ejemplo, de la existencia de mandamientos judiciales.

Así las cosas, se sostiene que de divulgarse lo requerido, se hace perfectamente identificable a un servidor público con actividades operativas de investigación de los delitos, lo que pone en peligro tanto su vida[3] como la prevención o la persecución de los delitos[4].

De lo anterior se concluye que se atiende puntualmente lo requerido por los lineamientos Vigésimo Tercero y Vigésimo Sexto de los Lineamientos Generales en materia de Clasificación y Desclasificación de la Información, así como para la Elaboración de Versiones Públicas, que establecen lo siguiente:

Vigésimo Tercero... *será necesario acreditar un vínculo, entre la persona física y la información que pueda poner en riesgo su vida, seguridad o salud,* debe considerarse lo siguiente.

a) Vigésimo Sexto se deberá acreditar... ***La existencia de un proceso penal en sustanciación o una carpeta de investigación en trámite.***

Resultaría desproporcionado e injustificado proporcionar la nomenclatura de todas y cada una de las investigaciones (investigación ministerial o carpeta de investigación) en las cuales interviene, ya que dicha información excedería los límites y alcances de la obligación de transparencia que se cumple.

No obstante, la presunción legal y humana como medios de prueba pueden dar certeza al Comité de Transparencia de la Fiscalía General del Estado de Veracruz sobre el hecho de que; la persona sobre la cual versa la presente clasificación, se desempeña como personal operativo en ésta Representación Social.

Además, el Instituto Nacional de Transparencia, Acceso a la Información y Protección de Datos Personales al resolver el Expediente DIT 0079/2018 establece un precedente en el Párrafo Segundo de la foja 14 de texto siguiente:

"[…] conviene recordar que las actuaciones de los Sujetos Obligados están imbuidas de la ***buena fe administrativa,*** *en el sentido de que se presumen apegadas a la* ***legalidad y veracidad****, salvo prueba en contrario."*

b) ***Que se acredite el vínculo que existe entre la información solicitada y la carpeta de investigación, o el proceso penal, según sea el caso.***

Como se puede apreciar en el desarrollo del presente, el personal operativo es parte fundamental para la integración de las Carpetas de Investigación/Investigaciones Ministeriales en trámite, lo que claramente demuestra un vínculo con la información solicitada, encontrándose relacionadas a una persona física identificada. Con ello se demuestra que el personal con funciones operativas de esta Fiscalía General, tienen relación directa con diversas Carpetas de Investigación en trámite.

c) ***Que la difusión de la información pueda impedir u obstruir las funciones que ejerce el Ministerio Público o su equivalente durante la etapa de investigación o ante los tribunales judiciales con motivo del ejercicio de la acción penal.***

De tal forma que divulgar el Nombre(s) del (la) servidor(a) público(a), Primer apellido y Segundo apellido, implicaría directamente identificar al servidor público, **fuera de los momentos procesales correspondientes**, poniendo así en riesgo la vida y función que ejerce el Ministerio Público. En ese

[4] Artículo 68 fracción III de la Ley 875.

sentido, es claro que el personal operativo cumple un rol fundamental en la investigación de hechos que la ley señala como delitos.

Precisamente, el entonces Instituto Federal de Acceso a la Información Pública, estableció el Criterio 06/09 de rubro y texto siguiente:

Criterio/06-09 "Nombres de servidores públicos dedicados a actividades en materia de seguridad, por excepción pueden considerarse información reservada."

De conformidad con el artículo 7, fracciones I y III de la Ley Federal de Transparencia y Acceso a la Información Pública Gubernamental el nombre de los servidores públicos es información de naturaleza pública. No obstante lo anterior, el mismo precepto establece la posibilidad de que existan excepciones a las obligaciones ahí establecidas cuando la información actualice algunos de los supuestos de reserva o confidencialidad previstos en los artículos 13, 14 y 18 de la citada ley. En este sentido, se debe señalar que existen funciones a cargo de servidores públicos, tendientes a garantizar de manera directa la seguridad nacional y pública, a través de acciones preventivas y correctivas encaminadas a combatir a la delincuencia en sus diferentes manifestaciones. Así, es pertinente señalar que en el artículo 13, fracción I de la ley de referencia se establece que podrá clasificarse aquella información cuya difusión pueda comprometer la seguridad nacional y pública. En este orden de ideas, una de las formas en que la delincuencia puede llegar a poner en riesgo la seguridad del país es precisamente anulando, impidiendo u obstaculizando la actuación de los servidores públicos que realizan funciones de carácter operativo, mediante el conocimiento de dicha situación, por lo que la reserva de la relación de los nombres y las funciones que desempeñan los servidores públicos que prestan sus servicios en áreas de seguridad nacional o pública, puede llegar a constituirse en un componente fundamental en el esfuerzo que realiza el Estado Mexicano para garantizar la seguridad del país en sus diferentes vertientes.

Criterio que es perfectamente aplicable al caso en concreto, según lo previsto por el artículo 5 fracción VIII de la Ley General del Sistema Nacional de Seguridad Pública que dice expresamente *VIII. Instituciones de Seguridad Pública: a las Instituciones Policiales, de Procuración de Justicia, del Sistema Penitenciario y dependencias encargadas de la Seguridad Pública a nivel federal, local y municipal;* razón por la cual, el personal de la Fiscalía General del Estado de Veracruz de Ignacio de la Llave, es personal dedicado a actividades en materia de seguridad.

III.- Hipótesis legales a satisfacer.- Según lo establecido en las fracciones I, II y III del artículo 70 de la Ley 875 de Transparencia supra citada, se cumple con las hipótesis normativas de la siguiente forma.

I. **Que la divulgación de la información represente un riesgo real, demostrable e identificable de perjuicio significativo al interés público**.- La información solicitada, tal como se ha mencionado, tiene relación directa con el interés público pues atiende a una representación social con el objeto de perseguir los delitos, situación que claramente implica que el suscrito genere acciones tuitivas de intereses difusos *ad cautelam,* es decir, prevenir las situaciones que pudieran poner en riesgo la persecución de los delitos y que, por otra parte, sitúe en riesgo real al servidor público de la Fiscalía General del Estado de Veracruz de Ignacio de la Llave.

II. **Que el riesgo de perjuicio que supondría la divulgación, supere el interés público general de que se difunda**.- En el caso concreto, no se advierte que exista ningún tipo de interés público en la información, toda vez que se refiere a conocer datos personales de un servidor público y no al ejercicio de sus funciones y atribuciones, lo que evidencia un interés particular sobre la información.

En ese sentido, la información solicitada no representa información de utilidad o interés social de manera previa, sino hasta el momento en que una persona en particular, se ubique en las hipótesis

normativas aplicables en las cuales se requiera conocer la identidad del servidor público en comento, las cuales se actualizan al momento de realizar la investigación de un hecho probablemente delictivo.

Para dicha situación, la propia Constitución Política de los Estados Unidos Mexicanos, reconoce en su artículo 20 el derecho humano aplicable en la materia, por el cual, en cada caso individualizado, se estará en condiciones de conocer la identidad de quienes intervienen en un asunto concreto.

III. **Que la limitación se adecúe al principio de proporcionalidad y represente el medio menos restrictivo disponible para evitar el perjuicio.** Se reserva *"1. Nombre completo de la persona COMISIONADA como COMANDANTE DE LA POLICIA MINISTERIAL EN LA CIUDAD DE ORIZABA entre los meses de AGOSTO A NOVIEMBRE DEL 2024."* y *"2. Datos que identifiquen dentro de la dependencia a la persona COMISIONADA como COMANDANTE DE LA POLICIA MINISTERIAL EN LA CIUDAD DE ORIZABA entre los meses de AGOSTO A NOVIEMBRE DEL 2024, es decir, número de placa, número de empleado, etc."* derivado de que realiza actividades en materia de seguridad pública; particularmente la relacionada con la investigación y persecución del delito y de sus sujetos, toda vez, que se advierte que darlo a conocer pone en riesgo a la persecución de los delitos y a la vida del servidor público.

No pasa desapercibida la obligación de establecer una relación directa entre la información reservada con la hipótesis en concreto que motiva dicha reserva, es decir, vincular a un servidor público con un asunto en concreto relacionado con su función, sin embargo, no se advierte que exista ningún tipo de interés público en la información, toda vez que se refiere a conocer datos personales de un servidor público y no al ejercicio de sus funciones y atribuciones, lo que evidencia un interés particular sobre la información.

JURISPRUDENCIA DE LOS TRIBUNALES COLEGIADOS DE CIRCUITO. SU APLICACIÓN CUANDO EXISTEN TESIS CONTRADICTORIAS.-

Conforme a lo dispuesto en el artículo 193 de la Ley de Amparo, la jurisprudencia que establezcan los Tribunales Colegiados de Circuito resulta obligatoria para diversas autoridades, dentro de las cuales se encuentran los Jueces de Distrito. Para la aplicación adecuada de esta disposición surge un problema, cuando dos o más Tribunales Colegiados sustentan tesis contradictorias, sin que la Suprema Corte de Justicia de la Nación haya decidido cuál debe prevalecer, dado que no pueden respetar todos los criterios a la vez, pues si se aplica uno necesariamente se dejarán de observar los otros. Al respecto existe una laguna en la ley, toda vez que no se dan los lineamientos para resolver el conflicto. Para integrar la ley, en su caso, ***se debe tener en cuenta el principio jurídico general relativo a que nadie está obligado a lo imposible, lo que conduce a que la norma legal en comento tendrá que respetarse únicamente en la medida de lo posible****, y esto sólo se logra mediante la observancia de una tesis y la inobservancia de la o de las otras; y a su vez, esta necesidad de optar por un solo criterio jurisprudencial y la falta de elementos lógicos o jurídicos con los que se pueda construir un basamento o lineamiento objetivo para regular o por lo menos guiar u orientar la elección, pone de manifiesto que la autoridad correspondiente goza de arbitrio judicial para hacerla. Buenos días, miembros de este Comité. Tal como les fue circulado previamente, tienen a la vista la actualización de trece sistemas de datos personales con igual número de avisos de privacidad tanto integrales como simplificados. Estos corresponden a las Fiscalías Regionales y a la Dirección General de los Servicios Periciales.

Con relación a las Fiscalías Regionales, se realizaron trabajos encaminados a la estandarización de información debido a la competencia de cada una de ellas; es decir, de los delitos sobre los cuales ejercitan sus facultades y atribuciones. La unificación de criterios se logró con el trabajo de los enlaces que se encuentran en cada una de las Fiscalías Regionales así como la participación y validación de información de cada uno de las y los titulares de ellas.

De esta manera y atendiendo a los principios de unidad, indivisibilidad y jerarquía, se conjunta la protección de datos personales desde la jurisdicción territorial de cada Fiscalía Regional, agrupando así, Unidades Integrales, Sub Unidades Integrales y Unidades de Atención Temprana, lo que representa una simplificación administrativa para los usuarios de los servicios que brinda la Fiscalía General del Estado de Veracruz de Ignacio de la Llave.

Con relación a los sistemas de la Dirección General de los Servicios Periciales, éstos fueron revisados y validados por cada uno de los responsables de las especialidades sobre las que versan, con la validación final del Director General. Esto permitió un lenguaje apropiado, finalidades claras y una mejor forma de presentar a las personas, las finalidades y protección que se tienen respecto de sus datos personales.

De esta forma, se mantienen actualizados los sistemas de datos personales, avisos de privacidad integrales y simplificados, en claro beneficio de la procuración de justicia y en cabal cumplimiento al marco normativo aplicable en la materia.

Es cuánto.

En consecuencia, considerando que el Comité de Transparencia será la autoridad máxima en materia de protección de datos personales, en la organización del responsable y está facultado para aprobar, supervisar y evaluar las políticas, programas, acciones y demás actividades que correspondan para el cumplimiento de la presente Ley y demás disposiciones que resulten aplicables en la materia, según las hipótesis normativas de los
